LOW NOISE

More and more venues require the use of low noise fireworks. This service is something Jenny specializes in. Low noise fireworks basically means less volume, they are not totally silent but the loud bangs are removed.

We use specialist products that are visually stunning. Low noise product focuses on vibrant colours and glittering effects. When designing these shows we can create stunning visuals and of course the most beautiful picture-perfect moments

TESTIMONIALS

Our passion for providing an amazing service and creating memories that last a lifetime for our clients, is evident in our reviews.

Sarah and Kevin Winter

Our wedding fireworks were absolutely out of this world! They definitely made the day for us and the length and intensity of the display were brilliant. To top it all off, the customer service we received from Craig and Jenny before the wedding and Jenny on the day was excellent.

Karla and Dean Coad

Jenny and Craig provided our wedding fireworks for us a few weeks ago and all I can say to anyone considering them is DO IT!

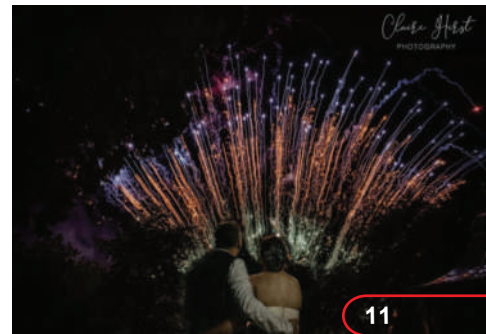

From the first meeting we had with them we felt so comfortable and relaxed and they got us even more excited for our fireworks than I thought possible. They absolutely love what they do and they have such amazing knowledge and experience.

Moving our wedding with 2 days notice we weren't sure they would be able to pull something off for us but they did and everyone absolutely loved it! Despite the short notice and being limited due to the horrible weather we were having, it was honestly incredible and so many people have told us how fantastic it was. It's definitely a way to make sure your guests will never forget your day! We cannot thank them enough for the amazing display and just how lovely and friendly they've been the full way through!! We can't wait to be able to visit their shop, they deserve every success, such professionals and down to Earth people!

Mike Nevin

We pushed the boat out at our daughter's wedding and booked Illumination Pyrotechnics to provide us with a firework display at the end of the evening and boy are we glad that we did!! It provided the Wow! Factor for all our guests and most importantly the bride and groom. Craig and Jenny were great in finding out what we had in mind. They liaised with the hotel and sorted out all the legal and technical aspects. The show was spectacular and just the right length. Thank you Craig and Jenny for making our daughter's dream day so special.

Your wedding will be the topic of many memories and lots more conversations for years to come, let us make those memories perfect.
